Perhaps the groundhog went back to cut the fur off his overcoat.—St. Louis Times.

The best remedy for unemployment  
 The best remedy for unemployment

It is hopeful sign that there are more overalls and fewer silk shirts in evidence than for the last several years.—Springfield Republican.

EDUCATORS ENDORSE  
COUNTY UNIT MEASURE

Consideration of the county unit plan for rural schools was the main feature of the annual convention of city and county school superintendents which met at Jefferson City Thursday.

The county unit plan has received the endorsement of Samuel Baker, state school superintendent, and if made a law will provide uniform taxes in all school districts of a county, together with uniform length of school terms in each district and the equal salaries for all teachers of given grades.

Monett would be excluded from the plan in Barry county if the measure becomes a law.

Wouldn't it be fine if for six months the men who are building warships could all be turned to building houses?—Boston Globe.

Signs of Spring—This office received an order for strawberry tickets this morning.

GET YOUR ADVERTISEMENTS  
IN FOR WEEKLY TIMES

The Weekly Times goes to press at noon Thursday of each week. The first run of the issue is made on Tuesday. Advertisers are asked to get their copy for advertisement in the Weekly Times at the office the first of the week in order to get good position.

The Weekly Times covers the rural district and small towns around Monett and advertisements in this edition brings many out-of-town shoppers. In preparing your advertising do not forget the Weekly readers.

## EFFECTS OF CONSTIPATION

Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by consumption.

PROCESS OF GRADING  
UP ALL SCRUB HERDS

Resemblance of Purebred Sire  
Within Three Generations.

Under Skillful Management and Breeding Former Poor Stock is Graded Up Within Comparatively Short Space of Time.

Once the use of purebred sires has become general throughout the country the process of grading up will be rapid. Many experiments and practical experience show that within three generations most of the individuals in the scrub herd headed by a good purebred sire resemble purebred animals in appearance. In a few more generations under skillful breeding and management, the former scrub stock is graded up to so great an extent that for production of meat and other animal products they are practically as useful as purebreds. The chief difference between a high-grade animal and a purebred is in the value for

Beef Cows, the Product of Proper Breeding.

breeding purposes. Only the latter can be used in producing purebred breeding stock. Moreover, only purebreds are eligible to registration in the different purebred associations.

The Department of Agriculture, through its co-operative state agencies, is prepared to supply stock raisers with printed information that tells in popular language the best animal breeding methods and the advantages to be derived from their use. In addition the department furnishes an emblem of recognition, suitable for display, to every farmer who agrees to use only purebred sires and to co-operate in other ways in the better live stock effort. To obtain the emblem the farmer or breeder is asked to fill out a simple blank showing the number and kind of stock he possesses and also to declare that all his male breeding animals are purebred.

## TOMATO SEEDS ARE WASTED

Can Be Converted Into an Edible Oil and a Press Cake or Meal for Live Stock Feed.

From 1,000 to 2,000 tons of tomato seeds go to waste each year in the big packing plants east of the Mississippi river. Investigations by the United States Department of Agriculture indicate that they can be profitably recovered and converted into an edible oil and a press cake or meal for stock feed, with a gross return of more than \$85,000 and a net of about \$35,000. Plants would operate two months a year on tomato seeds and might be used for grape and pumpkin seeds in addition, reducing the overhead.

## EFFICIENCY OF COTTON DUCK

Material Made More Serviceable by Simple Methods of Waterproofing and Mildew Proofing.

Life of cotton duck, used for protecting farm machinery, sacked grain, market fruits, field crops, etc., may be prolonged and the cloth made more serviceable by simple methods of waterproofing and mildew proofing worked out by the United States Department of Agriculture.

## PRICES RECEIVED FOR CORN

Rocky Mountain and Pacific States Held Record From 1866-1875 to 1896-1905.

Corn prices at the farms of producers have been highest in the Rocky Mountain and Pacific states in average of periods of years, from 1866-1875 to 1896-1905, after which the highest place has been held by the South Atlantic farmers.

**ITCH!**

A Nervous Wreck  
Following LaGrippe

Littleville, Mo.—I had a severe case of the la grippe and did not get along well afterward; it left me weak and a nervous wreck. I could not do anything. I went on this way for some time, just could not get back my health. I took many medicines but without results. At last I began taking Dr. Pierce's Favorite Prescription and it soon built me up and gave me strength and I felt like a different person. Women who want a good medicine will find it in "Favorite Prescription." —MRS. A. SHAIN, 402 W. Illinois St. Dr. Pierce's Favorite Prescription contains no alcohol or narcotic, and is sold by all good druggists in both liquid and tablet form. Send ten cents to Dr. Pierce's Invalid Hotel in Buffalo, N. Y., for a trial package of tablets.

**TRUST**

We consider each trust a sacred obligation. We fulfill our duties in an able dignified manner. Our record for fair dealing is well known. Fairness in everything is the motto of this organization.
